you can find detailed info on our website

Ukulele Guitar

Taking [Guitar or Ukulele](#) group classes is a fun and exciting way to get into music. Playing these instruments gives you a sense of achievement, builds your confidence, and relieves stress and anxiety, all while you're having a blast. So no matter your age, occupation, or stage of life, there's no better time than the present to start taking guitar or ukulele lessons!

Violin

A child learns his/her native language because he/she hears it spoken from the day of birth. The Suzuki approach calls this the "Mother Tongue" approach. In the same way, the child who hears music every day will learn the language of music. Suzuki violin group classes emphasize having fun, playing skill games together, and reinforcing previously learned pieces.

Piano

[Piano Classes](#) for children and adults are designed to help them discover the world of piano through games, ear training, rhythm activities and keyboard playing. Students will learn new pieces each week and have performances. Piano is one of the most natural instruments to approach. Taking piano class improves coordination, memory, social skills, and attention to details.
